

**LEWES FARMERS' MARKET
SECONDARY PRODUCER FORM 2009**

Common Cause Cooperative,

Common Cause is committed to supporting the local economy of Sussex and surrounding counties. We already have a policy of giving *priority to those secondary producers who use the most local ingredients*. We also want to produce information for market customers, giving the provenance of ingredients of processed foods sold at market. This will raise awareness of the availability of locally grown/raised primary produce, both for customers, and for you as a secondary producer. It is also an extra opportunity for you to promote your use of local ingredients. This also applies to the use of organic and fairly traded ingredients where local is not available.

Please complete this form listing as much information as possible about the original source of the primary ingredients you use. Where possible, **name the farm** where the ingredient was grown or raised. At the very least we require information on where you purchase the product, and its country of origin. We ask you to include every ingredient that constitutes 10% by volume, mass or value or more of any product you sell. Please also indicate any categories such as organic, free range, Conservation Grade, etc.

Producer name:.....

1. Please list **all** the products you wish to sell at market (e.g. different types of cakes, meat, veg or fruit pies, etc. Please include *all* products expected throughout the year including Christmas and Easter):

2. Please list all ingredients that constitute more than 10% by volume, mass, or value, **of any single product you wish to sell at market.**
