

## LEWES HOUSE GARDEN PROJECT IS PART OF:

### The Lewes Mosaic Project: Connecting Wildlife and Wellbeing

**Top 20 flowers for numbers of insects attracted per year of the 111 tested in a study by Rosi Rollings and Dave Goulson: 'Quantifying the attractiveness of garden flowers for pollinators' in Journal of Insect Conservation, 2019.**

Calaminta nepeta Calamint	<b>1</b>	Sedum spectabile Stonecrop	<b>11</b>
Helenium autumnale Sneezeweed	<b>2</b>	Lavandula intermedia 'eidelweis' White Lavender	<b>12</b>
Geranium rozanne	<b>3</b>	Echium vulgare Viper's Bugloss	<b>13</b>
Helenium 'Sahin's early flowerer'	<b>4</b>	Teucrium hircanicum Iranian Germander	<b>14</b>
Borago officinalis Borage	<b>5</b>	Stachys byzantina Lamb's Ear	<b>15</b>
Origanum vulgare Marjoram / Oregano	<b>6</b>	Centaurea scabiosa Greater Knapweed	<b>16</b>
Aster novi belgii New York Aster	<b>7</b>	Hyssopus officinalis Hyssop	<b>17</b>
Origanum vulgare (white) White oregano /marjoram	<b>8</b>	Verbena bonariensis	<b>18</b>
Veronicastrum virginicum Veronica	<b>9</b>	Veronica spicata Spiked Speedwell	<b>19</b>
Eryngium planum Sea Holly	<b>10</b>	Eupatorium cannabinum Hemp Agrimony	<b>20</b>

Lewes Mosaic Project is about nurturing the wellbeing of individuals, groups and our local ecology. The Mosaic project is connecting wellbeing with the wildlife and nature around us and helping to grow a mosaic of wildlife-rich habitats across the town. We are a partnership between the Railway Land Wildlife Trust and Common Cause Co-operative, [www.commoncause.org.uk](http://www.commoncause.org.uk)
